OBJECTIVE

Looking for an experience. Coming with the ability to learn and acquire extensive knowledge and experience while effectively performing my duties in the organization

EDUCATION

EIA University   Graduating in November 2022
Bachelor of Science in Computer Engineering   *GPA 3.74*

WORK EXPERIENCE

Musical CEDAR   Medellín, Antioquia, Colombia
Salesman   November 2018 – January 2019
- Helped customers make the right decisions about what musical instrument to buy according to their needs.
- Developed skills in the area of customer service.

MAJOR PROJECTS

AccessControl   November 2019 - Present
A system that monitors all entries and departures of employees using a fingerprint scanner
- Build using digitalPersona U.are.U 4500 fingerprint reader;
- Designed and developed using java with One Touch SDK (digitalPersona SDK);
- Managed and designed a dynamic database on MySQL with the information of entries and departures;
- Created a program task that generates a periodical report (15 days) of all collected data;
- Currently, the system is being integrated into Musical Cedar headquarter for final tests;
- The final product is expected to help companies save money based on non-compliance within working hours.

PROGRAMMING LANGUAGES   **TECHNOLOGIES**

1 years: JavaScript, Java   HTML, CSS, MySQL, Git, Tailwindcss, Vue.
6 months: C, Go

LANGUAGES

Spanish – Native
English – Fluent (B2)

VOLUNTEER EXPERIENCE

On multiple occasions, I took part in a volunteer called 'Misiones' in which I went to less favored rural zones where with the help of other volunteers we carried out activities of all kinds. This allowed me to interact and help around 200 people.
